Katasteri 2035

Cadastre 2035

FIG Young Surveyors Meeting, Amsterdam, 7-9 June 2016

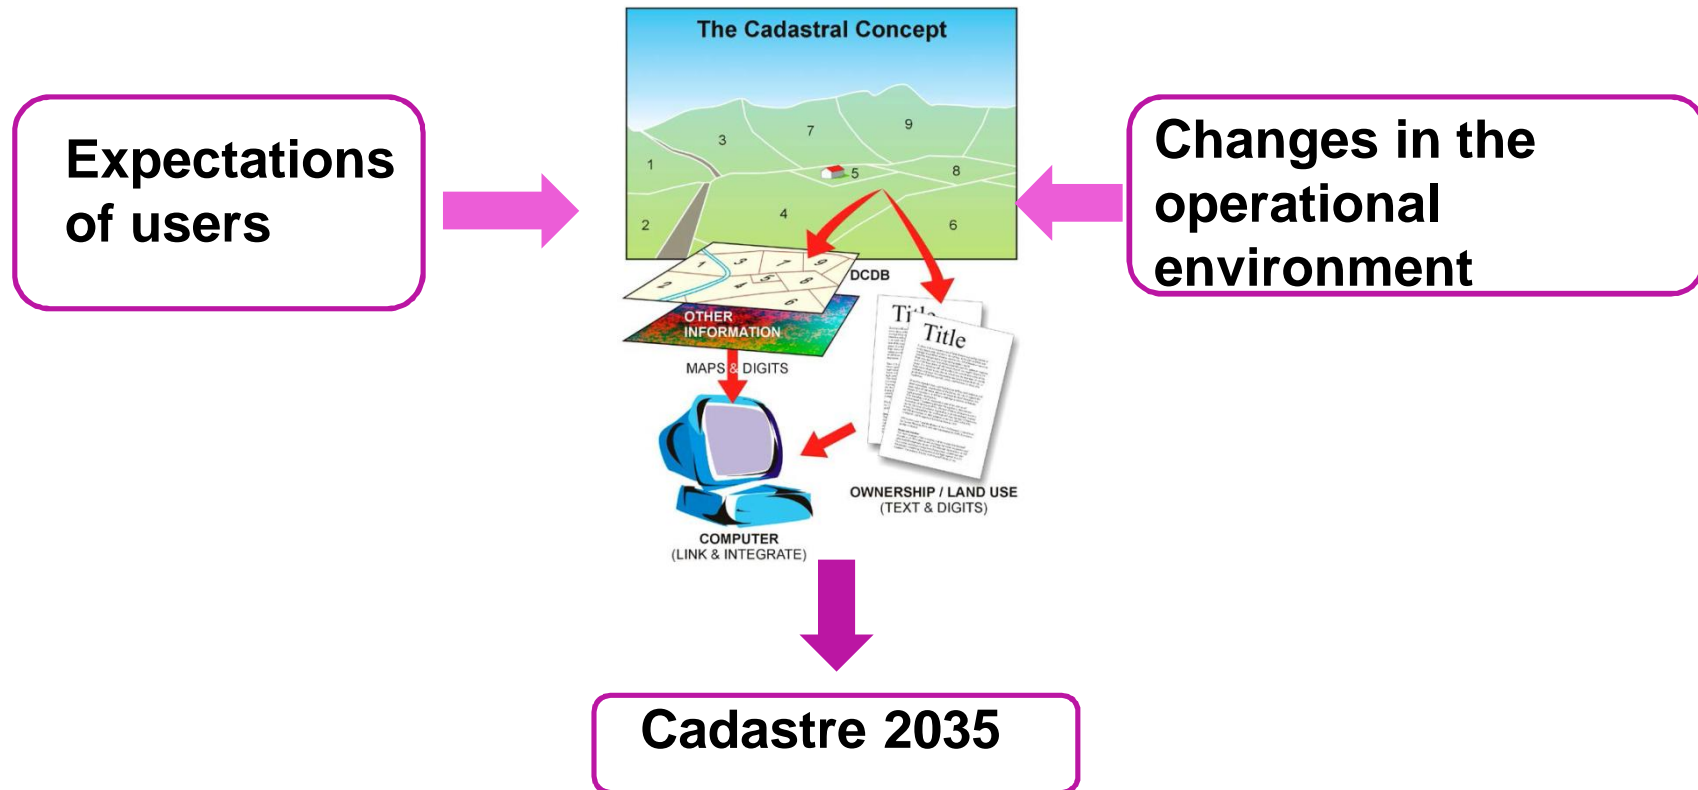

*M.Sc. (Tech), M.Soc.Sc Pauliina Krigsholm
Dr.Sc. (Tech) Kirsikka Riekkinen*

Cadastral 2035 – the research project

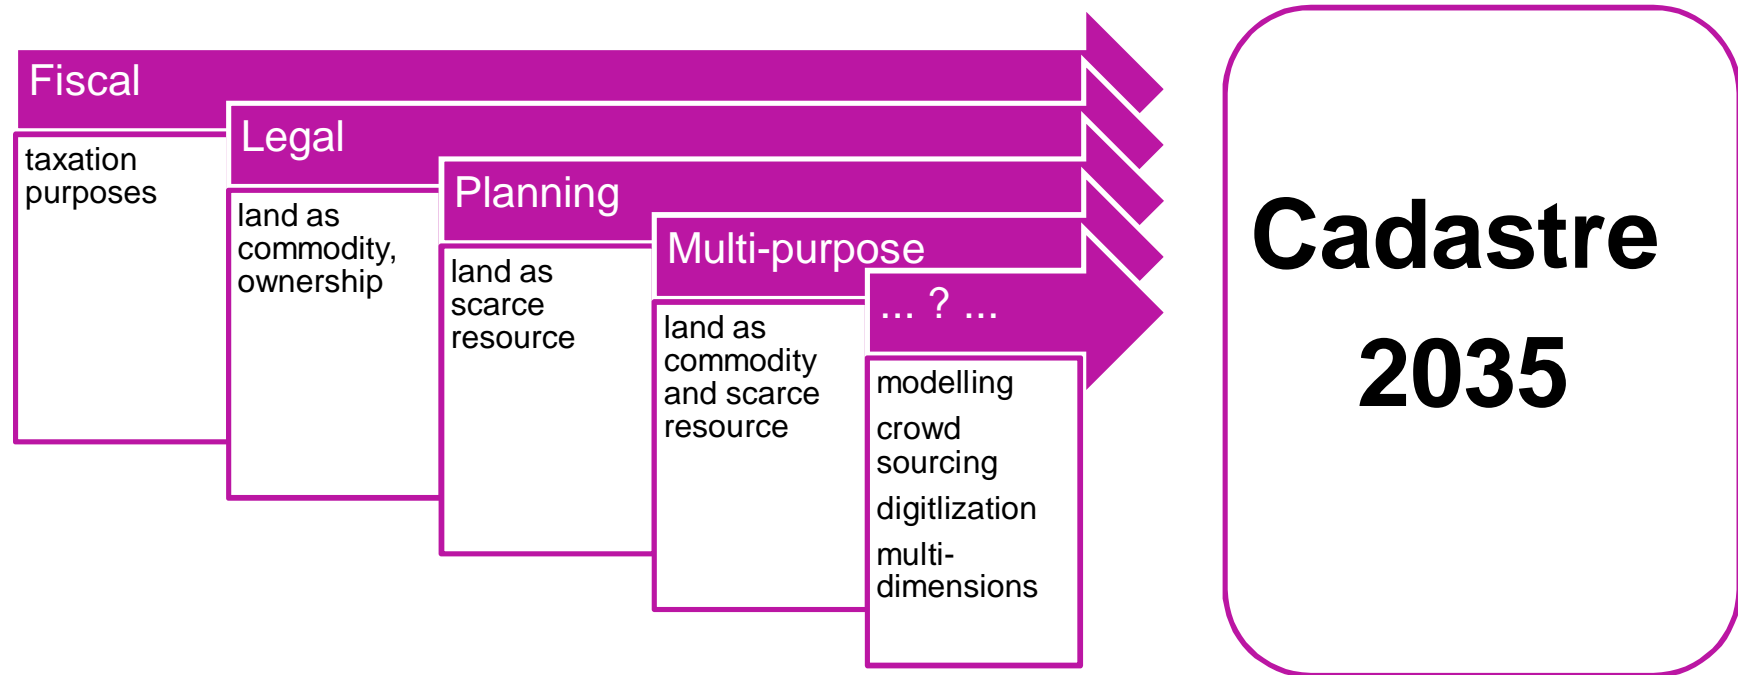

- Initiative from the National Land Survey of Finland (NLS)
- Funding: NLS, Ministry of Forestry and Agriculture, Aalto University
- Research team: Kirsikka Riekkinen (Aalto University), Pauliina Krigsholm (NLS), various master level students
- Schedule: project started in 2015 and ends in 2018 (doctoral dissertation 2019)

A1

Goal of the research project

The requirements for the cadastre are set by the society:

How do we do it?

- **Combining future studies with cadastral sciences**
 - > workshops, Delphoi-questionnaires as methods for material collection
- **Research project consists of several sub-researches:**
 - Effects of the changes in the operational environment of the cadastre
 - Visions of actors operating with the cadastre
 - Scenarios for future cadastre
- **Additionally, several master's theses are made, for example:**
 - Digitalized register for housing companies and individual shares
 - Importance of the cadastre from the point of view of constitutional protection of property
 - Easements in the Finnish cadastre

We welcome everyone to join discussions!
