The FIG Foundation – what is it?

The FIG Foundation is an independent body under the International Federation of Surveyors.

- The Foundation has been established for the purpose of raising funds to finance surveying education development projects and supporting young surveyors in order to build a sustainable future.
- The Foundation aims to raise a fund of 1 million US Dollars in the coming years. This will allow activities to be funded by using the annual interest. Until then the Foundation may use 50 per cent of its annual income for supporting its aims.
- The Foundation funds shall not be used to support the normal activities of FIG.
- The Foundation is administered by the FIG Office in Copenhagen and directed by a Board of Directors appointed by the FIG Council.
- The Directors of the Foundation will announce every year the scholarships and grants available. The Directors will also announce the distribution of funds and promote the results of supported projects.

History of the FIG Foundation

The FIG Education Foundation was established in 1996 as a public company under the Corporation Laws of Australia.

In 2000 the administration of the FIG Education Foundation was transferred to the FIG permanent office in Copenhagen. The General Assembly of FIG adopted the new Statutes for the FIG Foundation at its meeting in Seoul 11 May 2001. At the same time the original FIG Education Foundation was closed and the new FIG Foundation officially opened under the FIG umbrella.

Objectives of FIG Foundation

The objects for which the Foundation is established are:

- To give grants and scholarships to projects, for instance to develop curricula for surveying education and capacity building, especially in developing countries;
- To promote high standards of education and training for surveyors and to facilitate continuing professional development;
- To educate people in the disciplines of surveying, particularly in developing countries and countries in transition;
- To promote virtual academies and the use of distance learning in surveying education;
- To encourage research into all disciplines of surveying and to disseminate the results of that research;
- To promote the exchange of surveying personnel for greater understanding of all facets of the profession of surveying;
- To support by seed funding conferences and similar events in co-operation with international agencies such as the United Nations.
