

# Le Réseau Des Jeunes Géomètres Francophones: Enjeux Et Perspectives

Adama SARR (Senegal)

**Key words:** Young surveyor; youth; future; networking; surveying; language

## SUMMARY

The presentation will focus on francophone young surveyors network which is the network who gathered all francophones association surveyors in the world .How this network will be engaged in FIG as all almost countries members of FGF are of FIG.

I am engaged in FIG YSN since 2012 and was very engaged but the remark is that francophones ys are not very involved and one of the keys is to get more francophone ys in FIG YSN and FIG events.
