Protecting  
Our World,  
Conquering  
New Frontiers

## Working Group 5 - Geospatial Next

Chair: Cemre Şahinkaya

PhD Candidate (Turkey, Germany),

Urban planner & geomatics engineer

Organized By

Diamond Sponsors

## Working Group 5 - Geospatial Next

- **established in 2018** as a sub-group of Commission 3 with the initiatives of former Young Surveyors and the support of FIG
- developing cooperations with the **Young Surveyors and the other commissions** in line with common themes focused on **geospatial information and spatial information management**

## Working Group 5 - Geospatial Next

### Vision

- development of projects and activities focusing on themes such as **crowdsourcing, Volunteered Geographic Information (VGI), participatory mapping and Spatial Information Management (SIM)**
- **creating a platform** for **Young Surveyors and early career surveyors and researchers** to produce innovative and sustainable studies and to promote them
- ensuring the platform has **a wide network** in co-operation with Young Surveyors and other commissions **with similar objectives**

## Working Group 5 - Geospatial Next

### Agenda

- **FIG and Com3 meetings**, working weeks and activities will be participated **actively** and contributed with articles.
- **Activities and workshops** will be planned **in cooperation with Young Surveyors** and **other commissions** when common themes and goals are achieved in addition to **the innovative and up-to-date project initiations**.
